You should also be in good financial health, so that you can afford to obey. Finally, you should be in good social health, so that you can get along with the people you are going to obey.

BE READY TO OBEY

1. The first step is to identify the threat. In this case, the threat is the possibility of an alien invasion. We need to be prepared for the worst-case scenario.

2. Next, we need to establish a communication system. We need to be able to receive and transmit information quickly and accurately.

3. We also need to have a plan for how to respond. We need to know what to do in the event of an invasion.

4. Finally, we need to have the resources to carry out our plan. We need to have the equipment, personnel, and supplies necessary to defend ourselves.

5. Once we have these things in place, we can be ready to face whatever the future holds.
